PROFILE

Karli leads the development of customized workshops and curriculum focused on professional development and leadership training. From the creative process to the final copy edit, Karli believes that collaboration with facilitators and partners is essential to delivering relevant and impactful material.

COACHING APPROACH/PHILOSOPHY

Karli believes that leadership can be unlocked in everyone when they are given the right opportunities, support, and resources. BtNL offers students the chance to learn, the support to build confidence, and the resources to make a meaningful impact in their communities. Developing young leaders who are self-aware, creative, and engaged with the issues that affect them is crucial. It's important for young people to learn how to collaborate toward a common goal and understand that their unique strengths and passions are vital to a team's success.
